

Cal OES Daily Situation Report

May 31, 2017

Rivers can run at temperatures between 30-40 degrees which may cause life-threatening effects if rushed or jumped into. Wearing a life jacket can increase survival time.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.
- All deliveries and local access previously scheduled have been suspended.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed last week due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- There is no estimate when this section of State Route 1, approximately nine miles north of the San Luis Obispo/Monterey County line will re-open.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville, West Fork Carson River at Woodfords

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood stage:

Mono County:

- West Walker River at US 395 Below Little Walker is forecast to exceed flood stage at 6.2 feet the morning of 06/04/17.
 - Potential Impacts: Some minor flooding of lowlands, pastures, and rural roads.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

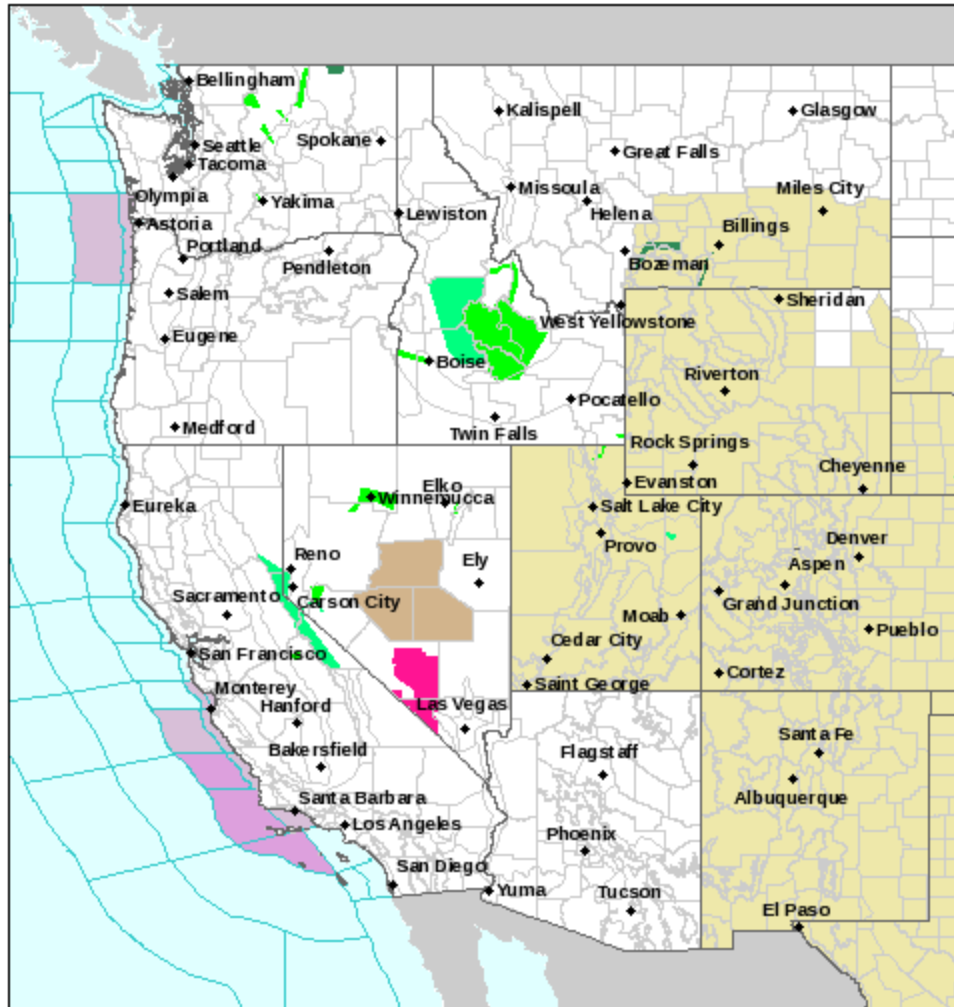

Some light rain has occurred from the trough passing through Northern California overnight and this morning. This passing trough appears to be the beginning of a period of unsettled weather with a few weather systems expected to affect the region over the next 7-10 days. The main band of rain with this current system will be moving across the eastern half of the region this morning, while the western half is pretty sunny. Some afternoon cloudiness is expected to return to the western areas and some light showers are also expected over the NW mountains. The eastern areas will clear somewhat, but also have lingering showers. Drier weather with some lingering mountain cloudiness will return for Thursday through Saturday afternoon. A chance of showers will develop Saturday evening/overnight in the north as another trough moves into the region. Stronger high pressure and warmer temperatures appear likely to return early next week and last through next Wednesday. A period of moderately strong westerly winds with gusts up around 35 mph is expected over the weekend that will then become northerly for Monday and weaken next Tuesday. Temperatures will be mostly below normal today then vary from near to about 8 degrees above normal in many areas through early next week.

SOUTHERN CALIFORNIA

Today will be the coolest day of the week as a trough over the Pacific Northwest produces a bit stronger onshore flow this afternoon. This will result in a deeper marine layer and isolated showers and thunderstorms along the Sierra Crest. Low clouds will cover the coast and coastal valleys to the lower coastal slopes this morning before skies partially clear this afternoon. Temperatures today will only be in the 60s along the coast to the lower 80s in the valleys. Northwest winds of 15-25 mph with gusts to 35 mph will be possible along the central coast and the Kern County Mountains. Any convection this afternoon should remain near the Sierra Crest. A ridge will build over the area late in the week, leading to warmer temperatures Thursday through Saturday. Highs will climb into the lower to mid 90s in the valleys by Friday and Saturday with minimum RH falling into the teens each afternoon. Winds should be light across all areas after today. A return of onshore flow should lead to slightly cooler weather Sunday and Monday

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2017-LAW-36143, 5/30/17, 1526 hours:** Humboldt Sheriff requested canine teams to search an area around the home of a missing 24 year old male who was last seen on 05/23/17. The home is in the Willow Creek area of Humboldt County. The resources were requested for a search on 5/31/17. Request referred to Cal OES Canine Coordinator. **Mission On Going**

Closed Cal OES Law Missions

- **2017-LAW-36115, 5/30/17, 1215 hours:** Trinity County requested a mission number to support a search in Trinity National Forest. Trinity Sheriff had received information from Trinity National Forest that a Forest Service employee had activated a SPOT device within the Trinity National Forest. A CHP helicopter located the employee and airlifted the employee to a landing zone. The employee had hiked into a canyon that they could not get out of, requiring assistance. They employee was uninjured. **Mission Closed**

Cal OES MISSIONS

Cal OES Missions

- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017.
- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

Presidential Declaration Storms – FEMA-4301-DR-CA & FEMA-4305-DR-CA

- Preliminary Damage Assessments are complete for counties named under Presidential Declaration FEMA-4301-DR-CA and FEMA-4305-DR-CA: Alameda, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Trinity, Tuolumne, Yolo, Yuba

Presidential Major Disaster Declaration - FEMA-4308-DR-CA

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Glenn, Humboldt, Kings, Lake, Lassen, Marin, Mariposa, Merced, Modoc, Monterey, Napa, Nevada, Plumas, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba Counties.
